INDEX

Abel, J. J. (Pincoffs).....500
Abelin, J...... 75
— (de Corral).....163
Abortion, incomplete, pituitary extract in.....189
Aberrant thyroid.....544
Abrahamson, Q. (Climenko)....417
Acetonitrile test for thyroid.....460
Achrondoplasia with history of hypothyroidism 207
Acrocyanosis, Vincent's syndrome.350
Acromegaly.....48, 169, 216, 218
— and diabetes insipidus..... 64
— case of typical.....236
— cases of.....494
— giantism and.....236
— hallmark of a stopped process.220
— treatment of.....171
Addis, T. (Barnett and Shevsky) 161, 189
— (Foster and Barnett).....162
— (Shevsky and Bevier).....316
Addison, W. F. H...... 63
Addison's disease, adrenal products in.....301, 308
— — and Basedow's disease....470
— — — deficient tissue oxidation 272
— — — exophthalmic goitre ...475
— — — the "respiration theory".264
— — case of.....160
— — history of case.....301
— — low adrenin content of adrenals after death.....316
— — suprarenal gland in terminal 308
— syndrome 49, 471
Adenoids 214
— cause of hypophyseal feminism 172
Adiposis dolorosa.....175
— — report of case.....502
Adiposity 219
— and scanty menstruation.....439
— in diabetes insipidus.....115
Adiposo-genital dystrophy and normal urine output.....118
— — — endocrine origin of....439
— — — in women.....502
— — — metabolism in.....500
Adiposo-genitalis of syphilitic origin 498
Adolescence, pituitary disturbance in.....324
— psychoses of, and pituitary disturbances 171
Adrenal .....48, ...157, 158, 159, 309, 469, 470
— and pituitary tablets in treatment of disease.....309
— capsule, function of human..158
— — origin of in chiropters....159
— capsules and lactation..... 51
— cholestrol content of foetus..157
— chromaffin system and fatigability 218
— cortex and vagotomy..... 59
— cortex, influence of.....274
— disappearance of lipoid-cholesterol bodies.....157
— disease, two cases.....309
— discharge, effect of piqure on.150
— dyspepsia 469
— extract, effect on gastric secretions 329
— — effect on regeneration.....322
— — toxicity of.....469
— form of malaria.....473
— gland and thyroid secretions. 33
— — extract in Addison's disease.....304, 305, 308
— — focal necrosis of.....472
— — therapy.....220, 221
— — function of.....51, 473
— — — — not determined.....149
— — in nephritis.....470
— — liberation of epinephrin from 157
— — relation to sugar metabolism 149
— — underactive 217
— — venous discharge.....316
— grafts.....264, 266, 273
— hematoma, two cases of.....159
— hemorrhage, death from.....494
— hypernephroma and excessive oxidation 272
— hypersecretion 45
— hypertrophy, following gonadectomy 245
— insufficiency.....327, 477
— — and deficient tissue oxidation 272

Adrenal insufficiency induced by anti-typhoid vaccination... .....470, 471
——— in exanthematous typhus..479
——— malaria 471
——— recurrent fever.....469
——— typhoid fever.....474
——— treatment of.....327
——— white line of.....211
——— with anemia.....327
— lesions and the "respiration theory".....264, 265
— line, the white.....470
— products in Addison's disease.....301, 308
— reaction in anti-typhoid vaccination 475
— secretion, a constituent of hemoglobin 271, 272
——— affinity for oxygen.....270
——— and metabolism.....271, 273
——— carried to inferior vena cava 268
——— "conversion" rather than "destruction" 277
— secretions, formation of.....268
——— function of.....267
——— influence on tissue oxidation 271
——— influences the respiratory phenomena 270
——— in pulmonary alveoli.....269
——— taken up by red corpuscles.278
— supply, low.....214
— system, physio-pathology of.. 44
— tablets in treatment of disease.309
— tumors and the "respiration theory".....264, 265
— vaccination 470
Adrenalectomy and bradycardia.310
— antibody production following.309
Adrenals 52, 159, 160, 309, 310, 311, 471-476
— adrenalin content of.....311
— antitoxic function of.....274
— blood flow through..... 51
— case showing complete destruction of.....309
— changes of, in infections.....475
— chromaffin content of.....311
— enlarged and sudden death in an infant.....472
— extirpation of both.....311
— function of....261, 279, 310, 473
— hemorrhage of in the young..474
— human, adrenin content after death 316
— in pernicious malaria.....476
— relation of secretion of to experimental hyperglycemia... 54
——— to glycogen content of liver.157
——— piqure hyperglycemia...157
——— sugar metabolism.....149
Adrenals, replacement of loss of enzymes 279
— role of.....159
——— action of vagus nerve on heart 310
Adrenalin, see adrenin.
— 160, 161, 162
— action of.....318
——— on heart.....160
——— hemoglobin 268
——— on parathyroidectomized dogs 326
— administration of 273
— and inhibition of urine flow..450
——— pigmentation 314
——— pituitrin, balance between.316
— constriction from.....313
— constrictor effect of succeeding doses 138
— content of blood.....312
——— of suprarenals.....311
——— after death by beriberi 312
— dilatation, brief sketch of knowledge of.....123
——— methods of research.....124
— dilatator mechanisms.....123
— effect on blood flow in muscles.164
——— pressure 2, 11
——— vessels 122
——— fatigue 480
——— irritability 315
——— leucocytes 161
— glycosuria and hyperglycemia. 55
— in Addison's disease..... .....301, 303, 304, 308
——— blood of one suffering from glaucoma 314
——— diabetes insipidus.....321
— influence of on blood distribution in man.....482
——— urine 160
— inhibitory effect of.....316
— injection and white line of adrenal insufficiency.....215
——— causing constriction.....479
——— effect upon blood.....313
——— in asthma.....270
— injections and metabolism.... 88
— mydriasis and dementia praecox 476
— painting of pancreas, effect of.330
— pituitrin and in asthma.....517
— produces diuresis.....449
— relation of urea excretion....161
— regulation of renal activity 161, 162
— response in birds.....140
——— carnivores 140
——— ferret 131
——— the fowl.....125
——— goat 129

Adrenalin response in horse....128
———— mammals 140
———— marsupials 140
———— opossum 126
———— primates 140
———— racoon 131
———— rabbit.....132, 135
———— reptiles 140
———— rodents 140
———— turtle 124
———— ungulates 140
———— white rat.....132
— sensitiveness to, following thyroidectomy 465
— stimulation of sympathetic terminations 449
— treatment of nephritis.....480
— use of in anaesthesia.....161
— vascular changes produced by in vertebrates.....122
— vasodilation in skeletal muscle 10
—— location of intestinal mechanism 6
———— limb mechanism..... 6
— vasodilator mechanism....1, 476
———— absent in reptiles, birds and rodents..... 9
———— animals found in..... 9
———— location of.....6, 160, 163
———— not in central nervous system 4
———— occurrence of..... 8
Adrenin .....52, ..53, 55, 162, 163, 164, 476-482
— a catalyst.....278
— action of.....45, 162, 315
— administration of.....273
— affects oxygen exchange in lung 270
— and autonomic nervous system.477
—— arsphenamine 467
—— blood sugar increase.....198
—— cardiac resistance.....478
—— digitalis therapy.....163
—— neo-arsenobenzol 477
—— neosalvarsan 54
—— pituitrin in bronchi, antagonistic effect.....478
— character of toxic action of..479
— circulating, minute quantity of 275
— concentration 276
— constriction produced by.....273
— content of human adrenals after death.....316
———— suprarenals in death by beriberi 162
— "conversion" rather than "destruction" 277
— destruction by oxidation..275, 276
— effect on blood pressure.....273
———— distribution of blood...316
Adrenin effect on dying and fatigued muscles 315
———— irritability 315
———— isolated pregnant uterus.163
———— muscle 65
———— non-pregnant uterus....163
———— tissue cultures.....314
———— urine flow.....163
— hyperglycemia, ergotoxin and.163
— in Addison's disease..... .....301, 303, 304, 308
— influence of causing exanthema 54
—— of temperature on activity of 278
— inhibits excretion of sodium chloride 313
— injections, effect upon blood..313
— in red corpuscles.....278
— liberation from adrenal glands.157
— neutralization of in normal blood 478
— pituitrin, action of on muscle..317
—— treatment of asthma.....479
— quantity required to produce recorded effects.....276
— rate of liberation into blood..310
— reaction of in typhoid patients.318
———— stomach to.....315
— relation of to experimental hyperglycemias 54
— some actions of on liver..... 53
— study of action on heart by radioscope 478
— test for thyroid disorders....460
"Adrenoxidasi" 278
Adson, A. W......324
Agenitalism 49
Aikins, W. H. B......202, 537
Albumoses in hypophyseal extract.500
Alfred-Khoury 529
Alimentary glycosuria.....29, 50
—— absence of..... 28
— rest in treatment of diabetes mellitus 514
— tract, effect of thyroid feeding upon 200
Allen, B. M...170, 194, 205, 206, 351
Alveolar abscesses and hyperthyroidism 32
Amblyopia treated with pituitary extract 175
Amblystoma, pharyngeal derivatives of 207
Ambulatory types of thyroid disease 528
Amenorrhea 438
— corpus luteum in..... 12
— ovaries in.....512
Amnesia following thyroidectomy.525
Amentia, atrophy of glands in..453
Amoretti, E......537
Amphibian larvae, studies upon.170

Anaesthetics combined with adrenalin 161
Anatomy of parathyroids.....516
Anemia, adrenal insufficiency with 327
Animo acids, relation to thyroxin 92, 93
Anorchidism, congenital, case of. 68
Antibody production following adrenalectomy 309
Antidiuresis as a normal pituitary function.....448, 449
"Anti-toxic action" of endocrine glands 42
— functions of adrenals.....274
Aorta, dilatation of in exophthalmic goitre.....342
Aortic insufficiency in exophthalmic goitre.....343
Apancreatism 49
Aparathyroidism 48
Apinealism 50
Apituitarism 48
Apparatus for testing activity of drugs on isolated uterus...323
Appendix and menstruation.....178
Arrillaga, F. C. (Jorge).....200
Arsphenamine, adrennin and....467
Artega, J. F......323
Arterial disease, relationship of ductless glands to.....490
— pressure in exanthematous typhus 479
— supply of human hypophysis.173
Arteries, constriction, caused by adrenalin 1
Artificial circulation, method of maintaining 313
Asher, L. (XXXIII)....75, 196, 204
Association for Study of Internal Secretions, purpose of.258, 280
Asthenia, periodic..... 49
— in diabetis insipidus.....117
— neurocirculatory 535
Asthma, adrenin-pituitrin treatment of.....479
— and vegetative nervous system.317
— pituitrin and adrenalin in....517
— treatment of.....65, 517
Asuprarenalism 48
Arthritis with pyorrhea alveolaris, endocrine etiology of.....529
Athymism 49
Athyroidism 48
Atrophine, action of.....317
— — on surviving stomach.....315
— pilocarpine and, action of....477
— reaction of in typhoid patients.318
— use and dosage.....221
Atrophy of nerve cells..... 18
Atwell, W. J......174
— (Marinus) 493
Aub, J. C. (Stern).....203
Auer, J. (Kleiner).....186
— (Meltzer) 479
Auer-Kleiner test in human diabetes 320
Auriculo-ventricular dissociation, adrenin in.....162
Autacoids 57
Autonomic drugs, action of on surviving stomach.....314
— nervous system.....317, 318
— — — adrenin 477
Autonomics, action of antagonistic 318

Babonniex, L. (Celos).....529
Bacigalupo, G. (Olivieri, Ronchi, and Ceballos).....207
Backman, E. L......53, 75, 76
Badertscher, J. A......202
Bainbridge, F. A. (Trevan)..... 53
Baldwin, F. M......207
Bandler, S. W......491
Banti's disease in children, progress and treatment of.....482
Barnett, G. D. (Addis and Foster) 162
— (Addis and Shevky)....161, 189
Barker, L. F......343
— (Mosenthal) 321
Barr, J......543
Barros, F......497
Basal metabolic rate in body.... 86
Basedow's disease, see Exophthalmic goitre.
Basedow's disease 204, 541
— — and Addison's disease.....470
— — typical case.....535
Basile, G......325
Baskett, E. D. (Greene and Nelson) 182
Bassinger, H. R......542
Baudoin, M......519
Bauer 473
Beach, L. E......483
Beard, A. H......320
— (Grave) 323
Beck, H. C......492
Beck, H. G......527
Beclere, A......521
Beebe, S. P......536
Behr, C......175
Bell, H. H......516
Benjamin, J. E. (Lange).....197
Benzonaphthol in endemic goitre.532
Benoit, E. P......511
Bensaude, R. (Hallion).....479
Beriberi, adrenin content of adrenals in death by....162, 312
Bernstein (Falta).....484
Berkeley, W. N......515
Bertine, Eleanor.....528

Betaiminazolylethylamin hydrocholride as standard for testing pituitary extract.....324
Beuzard (Loeper and Wagner)..469
Bevier, G. (Addis and Shevky)..316
Biberfield, J...... 52
Bickel, A......190
Bilateral cystic adrenals.....471
Biondi, G......516
Birds and reptiles, adrenalin response in.....140
Black, B. R. (Major).....471
Blain, A. W......530
Blindness, hypothyroid.....526
Block, S......489
Blood, adrenalin content of.....312
— — in sufferer from glaucoma.314
— changes following diversion of splenic blood from liver..69, 70
— coagulation, effect of thyroparathyroidectomy on.....351
— conditions effecting liberation of adrenin into.....310
— corpuscles, red, adrenin in...278
— — secretion and.....333
— destruction and regeneration and the spleen.....69, 70
— diastase of rabbits.....322
— distribution, effect of adrenin on 316
— dyscrasias and splenomegaly. 70
— effect of adrenin upon viscosity of 313
— examination in Addison's disease.....303, 306, 307
— flow in muscles, effect of adrenalin on.....164
— — through adrenals..... 51
— glands, disease of.....165
— glycolysis in diabetes.....485
— influence of thyroid preparation on.....347
— neutralization of adrenin in..478
— picture in myxedema and cretinism 348
— pressure.....211, 214, 223, ..229, 232, 235, 237, 238, 239
— — changes due to administration of adrenalin.....303, 306
— — effect of adrenalin on....2, 11
— — influence of adrenin on...273
— serum a solvent for iodin crystals 287
— sugar content..... .....212, 219, 229, 232, 237
— — diabetic 320
— — in thyroid and other endocrine diseases.....344
— — retention of after ligation of pancreatic duct.....330
— — guauidine hydrochloride and 331
Blood vessels, dilated by adrenalin 3
Boas, E. P. (Robey).....535
— (Sholz) 187
Body growth, influence of thyroid and hypophysis removal....351
— temperature and sex glands..167
Boiling water injections in goitre.207
Boir, C......198
Bone changes in Von Recklinghausen's disease.....490
— marrow, internal secretion of.318
— — method of perfusing.....313
Bones, cancellous condition.....219
Bony structure, anomalies of....214
Borchart, L. 493
Boring, A. M. (Morgan).....519
— (Pearl) 68, 184
Boruttau, H...... 68
Bottazzi, F......317, 477
Bovee, J. W......185
Bové y Piqué, D. E......509
Bradycardia and adrenalectomy.310
Bram, I. 529
Breathing, difficulty in.....248
Brissaud type of infantilism, case.507
Brooks, H......62
Brown, W. L. (Leyton, Spriggs, Ryffel and Cammidge).....514
Bruising, easy.....226
Bruit in exophthalmic goitre....343
Bryant, W. S......502, 504
Buford, C. G......341
Bulcke (Frey and Wels).....160
Bulcke, W. (Weis).....313
Bullrich, R. A......514
Burge, W. E......323
Burget, G. E...... 78
Burnett. T. C......328
Burns, D. (Watson).....351
Byron Bramwell pancreatic infantilism 514

Cachexia and atrophy of anterior lobe of hypophysis.....506
— hypophyseoprivia 48
— thyreoprivo, thyroid graft in.535
Caecese, E......469
Cafferata 535
Calcium content of blood in infantile tetany.....515
— treatment of infantile tetany.515
Calicetti, P......172
Cammidge, P. J. (Leyton, Spriggs, Ryffel and Brown).....514
Cannon, W. B......327
Carbohydrate content of muscle.321
— metabolism and endocrine dyscrasias 80
— — disturbances of.....311
— — in surviving dog liver.....163

Carbohydrate metabolism, islands of Langerhans in.....330, 331
— tolerance (high) in diabetes insipidus 117
— — in diabetes insipidus.....115
Carbolic acid in treatment of goitre 532
Carbon dioxide produced by thyroxin 88
Carcinoma, relationship between thymus and.....337
Cardiac vagus, effects of thyroid secretion on.....201
Carmichael, F. A......509
Carnivores, adrenalin response in.140
Caronia, G......328
Carotid gland..... 45
Carpenter, C. R......493
Carter, P. J......513
Castaño, C. A......489
Castex, M. R......169, 495, 498
Castration, cell changes in pituitary after..... 63
— effect on metabolism..... 57
Cataract, congenital, with mongolism 178
Catarinich, C......494
Cautley, E. 489, 507
Ceballos, A. (Olivieri, Ronchi and Bacigalupo) 207
Cell control, ductless gland.....493
Central nervous system, adrenalin vasodilation mechanism in.. 4
— — — changes in hypothyroidism.....77, 536
— — — relation to exophthalmic goitre 25
Celos (Babonneix).....529
Cerebro-spinal fluid, effect not same as pituitary extract.. 95
Cervello, V. (Levi).....314
Cervical ganglia, relation to thyroid 19
— ganglion, effect of irritation of superior 18
Cervical sympathetic ganglia....530
— — — relation of to eye..... 18
— — — — — — — heart 18
— — — — — — — thyroid 18
— — nerves, prenic and, influence of thyroid on.....204
Chagas' disease and cretinism.. 79
Chambers, R. M. (Fuller).....476
Chapin, C. L......334
Chartier, A......533
